STARRY STAYS

Want to indulge in Hollywood-style retail raids? Checking in at Hotel Wilshire will ensure that you're in the middle of all the action. By **Tanvi Saraf**

Adding a contemporary edge to the historic Wilshire Boulevard, Los Angeles, is the spanking new boutique property, Hotel Wilshire. While the plush, modern interiors would entice any guest, the most tempting part is its proximity to the best of L.A.'s shopping and entertainment hubs. The location – within walking distance of Beverly Hills and a short drive from Santa Monica promenade – makes it ideal for tourists in a city where taxis can burn a big hole in the pocket!

After a day exploring the city, you can get back and relax at the Roof On Wilshire, the poolside bar that offers a stunning view of the epic Hollywood sign. Sip the signature cocktails, enjoy the weather, and then jump into the pool to unwind. You can also get a private cabana here and spend the evening with your friends, in the heart of Hollywood. Now you know where to head for anytime you want to feel like a movie-star.
