The Miracle Mile has a new destination for vacationers, business travelers, and locals to dine, drink, play, and relax. OSM Investment Company, in conjunction with Greystone Hotels, has launched The Hotel Wilshire, a 74-room boutique property in the heart of Los Angeles' Mid-Wilshire corridor. Designed by Killeter Flammang Architects, the hotel incorporates sustainable resources and green building materials to achieve a LEED-certified designation. The Hotel Wilshire interiors, designed by RNA Design, are classically modern with cool gray and yellow accents. Accommodations include a penthouse suite with 570 square feet of private patio, and multi-media suites. Rooms feature flat-screen HD LCD TVs with technology media hubs that support cell phones, laptops and personal devices, complimentary high-speed Internet access and WiFi, and minibars. In addition to 360-degree views spanning the L.A. skyline, The Roof on Wilshire has a rooftop pool, a restaurant offering casual cuisine, and an intimate lounge, plus private cabanas and more than 1,000 square feet of space for events and creative meetings. Amenities include in-room dining, 24-hour valet, an executive boardroom, and a business center.
